## BREEDING CONDITIONS AND FEES 2021

### 1. REGISTRATION OF MARES

The mare to be inseminated must be introduced to Heinrichs Horses.

### 2. BREEDING SEASON

The frozen semen of the stallions is available the whole year.

### 3. INSEMINATION STATIONS

The insemination is only possible at the following insemination stations: GenTrans in Mühlen (Germany) and Paardenkliniek in Someren (Netherlands).

### 4. PROCESS

For all stallions there is only frozen semen available. Success in sports and permanent usage on a stud farm are not compatible with one another.

1. The buyer sends the ordering formula to [semen@heinrichshorses.de](mailto:semen@heinrichshorses.de)
2. Heinrichs Horses checks the information and sends the bill to the breeder by e-mail. The breeders pays veterinary costs itself.
3. After paying the bill Heinrichs Horses will send a confirmation to the insemination station and the breeder itself can contact the insemination station for exact details.
4. Per mare semen for a maximum of three cycles is supplied. If the mare is not in foal after three cycles the stallion must be changed. For this new stallion only the half of the original purchase price must be paid.

### 5. BREEDING CRITERIA

Heinrichs Horses aims to breed high quality sport horses. To ensure this mares needs to fulfill one of the following criteria:

1. Mares that competed in CSIH1\* or higher.
2. Young mares that score 8.5 or higher in the mare performance test.
3. Mare lines that had five horses or more on a level of 1.35m.
4. Mare lines that had three horses or more on a level of 1.45m.
5. Mare lines that had three horses or more on the level of 1.50m in the first three generations.
6. Winning mares of all breeding associations.
7. Highly decorated mares of all breeding associations.
